ABSTRACT

Designed primarily as a reference for advisors and counselors of two-year college students planning to transfer to senior colleges and universities in North Carolina, this report enumerates the transfer policies of each of the 46 senior institutions in the state and provides data on transfer activity. Following introductory material about the report and its development, information relevant to transfer to each of the 46 senior colleges is provided, including answers to questions concerning admissions, housing, costs, financial aid, transferable hours, course repetitions, grading policy, transfer of credit by alternative means, transferability of courses from technical institutes and proprietary schools, general education requirements, and transfer agreements with other institutions by program. Appendices include sample transfer agreements and tables providing data on the flow of undergraduate transfers among North Carolina colleges and universities, fall 1980; undergraduate transfers to North Carolina colleges and universities, fall 1970 to fall 1980; undergraduate transfer students at North Carolina colleges and universities by type of institution and sex, fall 1980; fall 1980 transfers from two-year to four-year colleges, from four-year to four-year colleges, from four-year to two-year colleges, and from two-year to two-year colleges; out-of-state transfers, fall 1980; and transfers into non-college parallel programs at two-year colleges. Dear Academic Advisor and Student:

As part of its legal responsibility to provide information and assistance regarding student admissions and transfers, The University of North Carolina publishes at the request of the Joint Committee on College Transfer Students this compilation of the Policies of Senior Colleges and Universities Concerning Transfer Students From Two-Year Colleges in North Carolina, 1981-1982. The document provides academic advisors and potential transfer students with needed information about admission and transfer of credit policies which helps students choose institutions and before transfer design programs of study which meet graduation requirements of receiving institutions. Such planning minimizes unnecessary loss of credit and time in the transfer process.

This publication represents but one of several important contributions of the Joint Committee on College Transfer Students. Others include the development and distribution of Guidelines for Transfer, the coordination in North Carolina of the American Council on Education's Program on Noncollegiate Sponsored Instruction, and the provision of an ongoing forum for the discussion and alleviation of articulation problems.

The work of the Joint Committee contributes to the maintenance of needed institutional autonomy in determining admissions and academic policies while at the same time facilitating the dissemination of helpful information on the admission of and the granting of credit to transfer students. The University of North Carolina cooperates in this important endeavor by providing the secretariat for the Joint Committee and publishing its reference manuals.

Cordially,

William Friday

PREFACE

This is the sixth edition of the Policies of Senior Colleges and Universities Concerning Transfer Students From Two-Year Colleges in North Carolina, prepared under the aegis of the Joint Committee on College Transfer Students and published at the request of the committee by The University of North Carolina General Administration.

The publication serves primarily as a reference for advisors, counselors, and others in the guidance of students at two-year institutions who plan to transfer to senior colleges and universities in North Carolina. It enumerates the policies of each of the forty-six senior institutions on the admission of and the granting of credit to transfer students. The compilation spares an individual needing such information the time and effort which otherwise would be required for him or her to obtain and leaf through catalogs of the various institutions. Even then the information may not be found since most catalogs contain less information about transfer policies than this publication.

The admissions officers of the senior institutions provided the statements of policies concerning transfer students at their respective institutions. No attempt was made to edit their responses except for format consistency. In fact, whenever possible their exact wording was used. The statements of policies, applicable to the current academic year, appear by institution in alphabetical order.

The information was gathered and compiled by an editorial subcommittee, consisting of the following:

John F. Corey (Chairman), Associate Vice President for Student Services and Special Programs, The University of North Carolina, General Administration, Chapel Hill

Bobby L. Anderson, Director, College Transfer and General Education, Department of Community Colleges, State Board of Community Colleges, Raleigh

Donald C. Jicha, Associate Dean, The General College, The University of North Carolina at Chapel Hill

B. Franklin Lowe, Jr., Dean of the College, Chowan College, Murfreesboro

Margaret C. Stewart, Dean of Academic Division, Gaston College, Dallas

Special thanks go to the editorial subcommittee for its work. Likewise, gratitude is due Dr. Corey's secretary, Ms. Carole Ogan, who assisted the subcommittee and prepared the manuscript for publication.

Suggestions for increasing its value will be welcomed and appreciated.

Mary Bland Josey, Chairperson
Joint Committee on College Transfer Students

JOINT COMMITTEE ON COLLEGE TRANSFER STUDENTS

40. General education requirements: *(modular calendar)*

Every student must obtain 6 semester hours of credit in each one of ten different Core categories, each of which offers a wide range of choices for the student. In addition, the student must establish competency in writing (which may or may not require course work). Core requirements thus take a minimum of 40 hours of course work, or roughly 1/3 of each student's four-year program.

The Core requirements are outlines as follows:

A. Introductory requirements
Writing competency
1. Freshman Seminar (4 credit hours)
B. Processes in Gaining Objective Knowledge
Symbolism
2. Verbal symbols (4 credit hours)
3. Non-verbal symbols (4 credit hours)
Empiricism
4. Natural sciences (4 credit hours)
5. Social sciences (4 credit hours)
C. Processes in Gaining Subjective Awareness & Knowledge
6. Personal knowledge (4 credit hours)
7. Religious knowledge (4 credit hours)
8. Intercultural awareness (4 credit hours)
9. Aesthetic knowledge (4 credit hours)
D. Processes in Gaining Synoptic Knowledge
10. Synoptic processes (4 credit hours)

Total: 40 credit hours (minimum). Note: 4 semester hours credit would be equivalent to one 8-week course under the modular calendar.

The three broad "process" categories--objective, subjective, and synoptic learning--represent three standpoints for viewing the subject matter generally associated with the liberal arts. Along with writing competency, they and their sub-categories represent a particular perspective from which "meaning" have traditionally been explored. They comprise the broad range of academic venture that has normally been considered the substance of a general studies curriculum. Each category may contain courses from many different areas: English, history, education, physics, religion, etc. But here, our approach will focus on the process of discovery, the ways that we inquire.
